

2007 TDAA Petit Prix Judges Briefing

Jumpers

Jumpers is a numbered course of jumps and tunnels only.

The dog will be faulted for dropped bars (5 faults), off courses (5 faults), and failure to perform (20 faults) only.

There are no contacts, so there are no refusals.

Course times will be based on yardage (SCT).

Scoring is time plus faults.

Dogs must be clean (no faults) and under standard course time to Qualify.

Bars will not be reset during the run. If a bar is knocked and needs to be reused during the run, the dog must be directed through the uprights or incur a failure to perform fault.

A maximum course time will be set at 1 ½ times the SCT.
