Height Divisions

You may opt to jump your dog in any height; however, they will be scored at their measured height. Your dog must have been measured by 2 Judges.

2" jump height - restricted to dogs measuring 4" or less at the withers; or dogs with a jump height exemption measuring 8" or less

4" jump height - restricted to dogs measuring 8" or less at the withers; or dogs with a jump height exemption measuring 12" or less

8" jump height - restricted to dogs measuring 12" or less at the withers; or dogs with a jump height exemption measuring 16" or less.

12" jump height – restricted to dogs measuring 16" or less at the withers; or dogs with a jump height exemption measuring 20" or less.

16" jump height – restricted to dogs measuring 20" or less at the withers.

Special provisions are made for the dogs that are long-backed, or dogs whose depth of chest is greater than his legs length.

E1 - Long backed dogs – The long-backed dog would be based on the measurements of the dog from the front of the chest to the back of his rear compared to the measurement of the dog's height at the withers. As a rule of thumb, if the dog's length is 150% or greater than the height measurement, the dog would qualify for this exemption.

E2 - Weight to length provision (by structure, not obesity) – This exemption should be limited to certain breeds that have a propensity for weight that is greater than their height if you compare pounds to inches.

E 3 - Dogs with dwarfish legs/deep chest dogs – This exemption is granted to dogs whose leg to shoulders height ratio is 1/3 or less of the dog's overall height. The exemption for dog's with dwarfish legs is based on the measurement of the dog's withers height, when that height is 150% or greater than the measurement of the space from the floor to chest veteran dog is a dog at least 7 years of age. There is no special system of titling for veteran dogs.
